

# Reset Route Tag Guide

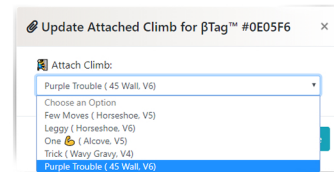

This guide explains how to reset a reusable climbing tag using your phone or desktop. To get started, go to <https://main.betabouldersapp.com> on the desktop or open the app on your phone and make you're logged into your gym or setter account.

*Est. time: 3 mins*

## From Manage Tag (Gym Accounts only)

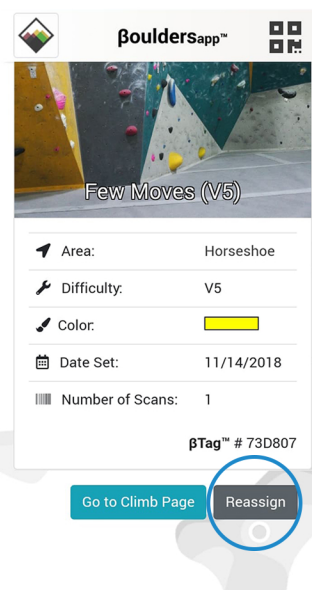

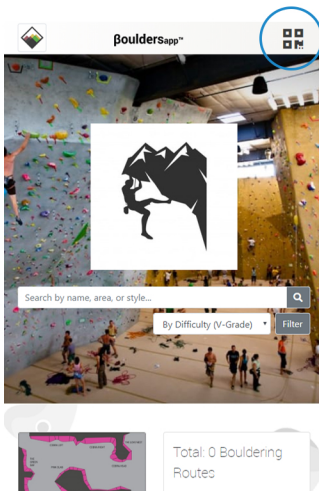

You can also reattach from the details modal.

Select from a dropdown selection of active climbs located at the gym to attach to the tag.

NOTE: The climb must be created first before it can be attached to a reusable tag.

## From Scanner (Gym and Setter Accounts)

**1** Click the scanner button on the top right of any page.

**2** Select the reset reusable tag option and scan the tag.

**3** Once scanned, you will be navigated to see the details of the attached climb. You can reassign a new climb by clicking the "Reassign" button.
